Services Requested

Category 1: Internet Access and/or Telecommunications

Type	Function	Number Entities	Quantity	Unit	Min Capacity	Max Capacity	Installation and Initial Configuration?	Maintenance Indicator	Associated RFP
Internet Access and/or Telecommunications	Leased Lit Fiber	3	1	Circuits	100 Mbps	500 Mbps	Yes	Yes	View RFP Documents
Internet Access and/or Telecommunications	Internet Access & Transport Bundled	3	1	Circuits	100 Mbps	500 Mbps	Yes	Yes	View RFP Documents
Internet Access and/or Telecommunications	Internet Access: ISP Service Only	3			100 Mbps	500 Mbps	Yes	Yes	View RFP Documents

Category One Narrative

There is no formal RFP for any of the services requested in this 470, but it is important for all service providers read and respond to the attached RFP documents when preparing their bids.

We seek managed internet access bundled with a transport circuit with no bias regarding circuit material. We have chosen the three drop down functions above to ensure that limitations of the EPC system do not limit service provider bidding options with symmetrical bandwidth at 100 Mbps scalable to 500Mbps. This is the true maximum capacity we for which we expect to see pricing with guaranteed throughput to the WAN headend at Hebron Middle School, 307 S. Main Street, Hebron, IN 46341 beginning July 1, 2018. Provide laddered pricing from 100Mbps to 500Mbps in all bids and contracts.

The school district would like to see pricing for the following tiers:

1. 100 Mbps
2. 250 Mbps
3. 500 Mbps

The school district will require approximately 16+/- public IPv4 addresses. Please provide individual or block pricing for additional addresses to account for potential growth during the term of the contract. You may also provide optional pricing for the technical equivalent number of IPv6 addresses. Preference will be given to a vendor who will allow the school district to keep their existing Class C IPv4 addresses.

The proposal must include any service provider owned onsite equipment necessary to hand off service to the District's head-end equipment, and you should describe your proposed hand-off as part of your response.

Each respondent must provide a proposed Service Level Agreement (SLA) with their response. Please see attached RFP for details on SLA.

Important details in RFP describe multi-year contracts, LCP, Indiana QPAs, separate installations, construction costs, and bidding information along with an RFP document "Potential FCC/USAC review questions.

DISQUALIFICATION FACTOR:

MSD of Boone Township School requires all bidders to attend an on-site meeting with the Technology Director, Chris Stalbaum, before submitting a bid on October 26, 2017 at 9:00am CST at Hebron Elementary School (307 S Main Street, Hebron, IN; please enter at Door H) or their bid will be disqualified.
