

AHERA-Required Annual Asbestos Notifications

September 9, 2015

(Parent Notification)

Hebron Elementary School:

The board and administration know that parents are concerned about the safety of their children in our schools that contain small amounts of asbestos. During previous renovation projects, attempts have been made to remove all of the asbestos containing material throughout the building. However, small amounts of asbestos still remain in the elementary school. The remaining asbestos has been inspected, maintained and poses no threat to students, faculty, or staff. It will continue to be maintained in a safe condition by our ongoing surveillance, inspection and our asbestos operations & maintenance program.

In accordance with federal law, we have an asbestos management plan for each building. This plan is available in the office of each school, the maintenance office, and at the Superintendent's Office located at 307 South Main Street. You are welcome to inspect these management plans during regular business hours. If you have any questions regarding our asbestos management program, please contact the Superintendent, Dr. Nathan Kleefisch, at (219) 996-4771.

Hebron Middle School:

The board and administration know that parents are concerned about the safety of their children in our schools that contain small amounts of asbestos. During previous renovation projects, attempts have been made to remove all of the asbestos containing material throughout the building. However, small amounts of asbestos still remain in the middle school. The remaining asbestos has been inspected, maintained and poses no threat to students, faculty, or staff. It will continue to be maintained in a safe condition by our ongoing surveillance, inspection and our asbestos operations & maintenance program.

In accordance with federal law, we have an asbestos management plan for each building. This plan is available in the office of each school, the maintenance office, and at the Superintendent's Office located at 307 South Main Street. You are welcome to inspect these management plans during regular business hours. If you have any questions regarding our asbestos

management program, please contact the Superintendent, Dr. Nathan Kleefisch, at (219) 996-4771.

Hebron High School:

The board and administration know that parents are concerned about asbestos safety, and we are happy to report that Hebron High School is asbestos-free. In accordance with federal law, we have an asbestos management plan for each building. This plan is available in the office of each school, the maintenance office, and at the Superintendent's Office located at 307 South Main Street. You are welcome to inspect these management plans during regular business hours. If you have any questions regarding our asbestos management program, please contact the Superintendent, Dr. Nathan Kleefisch, at (219) 996-4771.
